

## SmartCash™ Vault Specifications

---

### SmartCash Vault Family of Networked and Intelligent Safes

SmartCash Vault users tighten cash management processes to reduce shrinkage, and secure cash in an industrialized steel-networked safe. An added benefit - checks can be scanned and processed through a compact check scanner.

Any location accepting more than \$1,000 cash per day can

- Tighten cash processes
- Increase security
- Enhance cash flow

Locations accepting cash can benefit from a combined solution with armored carriers and banks using a Burroughs empowered solution. Operators feed currency into the bill acceptor just as they would with a vending machine, and the notes are verified (counterfeits are rejected) by denomination and immediately stored in the safe. Relevant data is electronically journaled and optionally transmitted across a network for enterprise wide financial reporting.

SmartCash Networked Series of Vaults are differentiated in the market because of a wireless networking capability communicating to a Burroughs operated data center.

### SmartCash Vault Networked Series Specifications

Model	Width	Depth	Height	Height w/ optional base	Bill acceptors	Total note capacity	Approximate weight
<b>SCV 2461-1</b> <i>Single-note validator dimensions</i>	12 in.	20 in.	25.25 in.	31 in.	1	1,200	90 lbs

## Intelligent Safes for intelligent Businesses

Convenience stores, quick-service restaurants and retailers that require next-day credit for cash deposits can now take advantage of Burroughs SmartCash Vault; a market-leading, networked intelligent-safe solution that also dispenses currency for till replenishment. Combining deposit and withdrawal functionality, the SmartCash Vault empowers retailers to focus less on managing cash and more on managing their business. Thanks to proven bill acceptor technology, SmartCash Vault enables users to count and store incoming notes in a steel safe while rejecting counterfeit items.

## Enhanced Security

Store your cash in a steel safe, securely bolted to the floor. You increase employee security with less cash exposure.

- Create a safer environment for your business
- Dramatically reduce till cash limits
- Avoid risky trips carrying loose cash to your local branch
