

Shredder Solutions

Shredder Solutions

Burroughs offers a complete line of shredders designed to meet your unique requirements as well as today's security standards.

These shredders feature commercial-grade design and components in both cross-cut and strip-cut configurations.

Sensitive documents written on paper or stored on media should always be shredded rather than being thrown in the wastebasket. Burroughs provides four types of shredders:

- Desktop shredders are ideal for smaller offices, particularly the executive office, where confidential information like financials should be shredded on a regular basis
- Office shredders are designed to handle the demands of between five to twelve users and on the average shred up to three cases of paper per day. Office shredders are an excellent choice to meet departmental needs.

- Multimedia shredders can shred CDs, credit cards, DVDs, 3 1/2" floppy disks, 100MB and 250MB Zip disks, 4mm DAT tapes and LS 120 Super disks as well as paper. This type of shredder completely solves information security risks with the destruction of the source media
- Industrial shredders shred between 60 and 500 sheets of paper in seconds! These shredders are extremely powerful, fast, efficient, and are highly effective

There are two types of shred cuts available:

- Strip-cut which shreds the paper lengthwise
- Cross-cut considered a higher security shred cut because it shreds both length and widthwise, and reduces the volume of shredded paper in the process

Burroughs can help you select the shredder solution that best meets your business size requirements and your expectations for size, performance, and security.

Deskside Shredders

The deskside shredders are a perfect choice for the Executive Office where sensitive and confidential data is disposed of daily. Far superior to the typical shredder available in the office supply store these shredders will last for years. This compact shredder will comfortably accommodate three to five users.

The deskside shredder is also an excellent choice for your work from home sales and professional staff.

8200CC Cross-Cut Deskside 8200SC Strip-Cut Deskside

The 8200CC and 8200SC shredders are as compact as a wastebasket, yet provide enough power to handle paper clips and staples. Cross-cut and strip-cut models provide on-the-spot destruction of sensitive paperwork, phone messages and notes generated throughout the day. 8200 Shredders are ideal for busy professionals or the home office.

Standard Features

- Auto Start/Auto Stop: Optical sensor detects paper and starts operation automatically
- Special heat-treated steel cutters which require minimal oil
- Slide-out waste bin for easy removal of paper shreds
- Auto Sensor: When waste bin is full, the motor stops automatically
- Door Safety Sensor: Motor stops automatically when cabinet door is open
- Thermal overload protection

Specifications

8300CC Cross-Cut Deskside

8300SC Strip-Cut Deskside

The 8300 series deskside shredder is designed for mid-size office environments like those found in finance/accounting or human resources. This deskside shredder is able to accommodate from three to five users, this compact shredder offers users the highest in value and reliability available on the market today.

Available in cross-cut and strip-cut models, the 8300 series deskside shredders have the ability to shred staples, paper clips, and with the strip-cut model even CDs.

This light weight deskside shredder shares many of the performance features of the larger Office Shredders.

The 8300CC and 8300SC Deskside Shredders combine space-saving design with commercial-grade components including all-metal cabinets, heat-treated steel blades, heavy-duty AC geared motors, and sturdy waste bins.

Available in cross-cut and strip-cut models, each has the power to shred staples, paper clips, and even CDs. 8300 Shredders provide on-the-spot destruction of sensitive information for small businesses or the home office.

Standard Features

- Auto Start/Auto Stop
- Door Safety Sensor
- Auto Reverse
- Heat-treated steel cutters are specially ground for longevity and require minimal oil
- High Quality Geared Motor: Powerful, efficient AC geared-motor with heavy duty steel gears
- All metal cabinet with casters
- Auto Sensor bin full auto stop
- Lifetime Guaranteed heavy-duty waste bin
- Cutter Auto Stop stops cutter blades after 30 minutes of continuous use
- Thermal overload protection Safety Circuit Breaker

Multimedia Shredder

Multimedia shredders are designed to provide privacy protection and high-security for businesses and corporations alike.

With a multimedia shredder you can shred CDs, credit cards, DVDs, 3 1/2" floppy disks, 100MB and 250MB Zip disks, 4mm DAT tapes and LS 120 Super disks. This type of shredder completely solves information security risks with the destruction of the source media. Strong, fast and secure, the Multimedia destroys volumes of data in mere seconds.

These powerful Multimedia Shredders offer commercial-grade quality contained in a compact design.

Multimedia shredders are compact enough to fit in an office environment.

8702CC Cross-Cut Multimedia Shredder

The FD 8702CC Cross-Cut Multimedia shredder has two feed openings: one to accept up to 40 sheets of paper at once, and a second feed opening specially designed to shred multiple CDs, DVDs, and DV tapes at one time. Paper can be shredded at a speed of up to 11 feet per minute, with a shred size of 5/32" x 1 5/8".

Specifications

	8702CC
Cutting Style	Cross Cut
Shred Size	5/32" x 1 5/8"
Sheet Capacity	35 to 40
Speed	11 fpm
Feed Opening	9.4"
Dimensions	20" W x 20" D x 36" H
Bin Capacity:	21 gal
Weight	177 lbs
Power Supply	110V, 50/60Hz
Product Number	750512907

The 8702CC Multimedia Shredder's features include heat-treated steel blades, an easy-to-use LED control panel, lifetime guaranteed waste bin, and a powerful AC geared-motor. The 8702CC has unmatched capacity to shred paper, CDs, DVDs, and DV tape, and provides reliable performance and information security in your business or home office.

Standard Features

- Auto Start/Auto Stop
- Door Safety Sensor
- Auto Reverse
- Heat-treated steel cutters are specially ground for longevity and require minimal oil

- All metal cabinet with casters
- Auto Sensor bin full auto stop
- Lifetime Guaranteed heavy-duty waste bin
- Auto Cleaning to insure maximum efficiency
- Cutter Auto Stop stops cutter blades after 30 minutes of continuous use
- Thermal overload protection
- Safety Circuit Breaker ensures safe operation operation

Warranty

- 10-Year Limited Warranty on cross-cut and strip-cut cutting head
- 1-Year Warranty on all other parts parts

Industrial Conveyor Shredders

The industrial strength series of shredders includes the 8802, and 8900 series. These industrial conveyor shredders handle the high capacity shredding needs of several departments or even an entire facility and carefully combine strength with operator safety. Industrial shredders can easily shred between 60 and 500 sheets of paper at one time! Using high-capacity conveyor-fed, these models are specially designed for large volume shredding in a central location.

Both cross-cut and strip-cut models can shred entire files, stacks of computer forms, cardboard, tapes, ribbons, CDs and magnetic disks. Heat-treated solid-steel cutter blades, a powerful AC geared-motor, and a variety of safety features combine to offer years of safe, reliable document security.

8802SC Strip-Cut Industrial Shredder

The 8802SC Industrial Conveyor Shredders offer high capacity for shredding large volumes of material, and can serve the needs of an entire organization. These industrial shredders are powerful enough to shred just about anything including entire files, stacks of computer forms, cardboard, tapes, CDs and magnetic disks.

The 8802SC Strip-Cut model can shred up to 70 sheets at once, up to 23 feet per minute, with a shred size of 5/32".

Warranty

- 10-Year Limited Warranty on cross-cut and strip-cut cutting head
- 1-Year Warranty on all other parts

Standard Features

- Designed to shred entire files, stacks of computer forms, cardboard, tapes, ribbons, CDs and magnetic disks
- Heat-treated solid steel cutters are specially ground for longevity and require minimal oil
- High-volume for centralized shredding
- Large safety bar to stop operation
- Strip-cut model shreds up to 70 sheets at once
- Mobile steel waste bin on casters
- Thermal overload protection
- Variable shred sizes available
- Safety Circuit Breaker ensures safe operation
- Auto Sensor stops motor automatically when waste bin is full

Featured Highlights

- Conveyor feed system
- High-quality all metal construction
- Special heat-treated solid steel cutting blades
- Large safety bar to stop operation
- Overload protection
- High-density waste bin on casters

Specifications

	8802SC
Cutting Style	Strip Cut
Shred Size	1/2"
Sheet Capacity	105 to 125
Speed	50 fpm
Feed Opening	16"
Dimensions	28" W x 51" D x 46" H
Bin Capacity:	49 gal
Weight	661 lbs actual weight
Power Supply	3-Phase, 220V, 50/60 Hz NEMA L15-20P plug included NEMA L15-20R receptacle required
Product Number	750514903

8802CC Cross-Cut Industrial Shredder

The 8802CC is a high volume conveyor-fed shredder that combines fully-automated features with industrial strength for high volume centralized shredding. Standard features include an LED control panel with load indicator and user-friendly features such as Auto Start/Auto, Auto Reverse, and Auto Cleaning and enough power to shred up to 90 sheets of paper in a single pass.

This shredder is powerful enough to shred entire files, stacks of computer forms, tapes, CDs and ZIP disks with specially heat-treated solid-steel cutting blades and a powerful AC geared-motor. This powerful machine shreds up to 90 sheets in one pass and operates at a speed of up to 40 feet per minute.

An easy-to-read Load Indicator assists operators in determining how close they are to the maximum shred capacity in order to avoid jams and provide optimal efficiency. Indicators advise operators when the waste bin is full or the cabinet door is open. Two modes of operation are available: Auto Start/Stop or Manual.

Specifications

	8802CC
Cutting Style	Cross Cut
Shred Size	1/4" x 2"
Sheet Capacity	75 to 90
Speed	Upto 40 fpm
Feed Opening	16"
Dimensions	28" W x 47" D x 42" H
Bin Capacity:	36 gal
Weight	661 lbs actual weight
Power Supply	3-Phase, 220V, 50/60 Hz NEMA L15-20P plug included NEMA L15-20R receptacle required
Product Number	750513905

* Sheet capacity may vary due to variations in paper and power supply.

Auto Start/Stop mode utilizes optical sensors which detect paper and start/stop operation automatically. Manual mode provides non-stop operation for shredding small sized paper or films.

Safety is an important design component. A large 18"-wide safety bar is located in front of the conveyor belt system and will shut down the shredder instantly when pressed. A safety key and lock system is also included to ensure the shredder is operated only by authorized staff.

Standard Features

- Belt-Feed Industrial Shredding System shreds entire files, stacks of computer forms, cardboard, tapes, ribbons, CDs and magnetic disks
- LED Control Panel: Integrated digital load indicator and sensors
- Front Waste Bin Access: Front cabinet door allows the shredder to be placed against a wall to maximize space savings
- Auto Start/Auto Mode: Optical sensor detects paper and starts operation automatically
- Manual Mode: Shredder operates continuously for shredding small sized paper or films
- Door Safety Sensor: Motor stops automatically if cabinet door is opened
- Auto Reverse: In case of paper jam, built-in controls switch motor into reverse to clear jam
- Waste Bin Full Sensor: Motor stops automatically when waste bin is full
- Auto Cleaning: Allows the motor to run in reverse for one minute to clear shred particles
- Self-Diagnosis System: Provides a variety of operational data with optional diagnostic reader
- Heat-Treated Solid-Steel Cutters: Specially ground for longevity and require minimal oiling
- Large Safety Bar to stop operation
- Mobile Waste Bin on casters
- Thermal Overload Protection
- Safety Circuit Breaker: Ensures safe operation
- Safety Key and Lock: Provides maximum control of the shredder

Warranty

- 10-Year Limited Warranty on cross-cut head
- 1-Year Warranty on all other parts parts

8902CC Cross-Cut Industrial Shredder

The 8902CC Industrial Conveyor Shredder has the strength to tackle just about any shredding job. This high-capacity conveyor-fed model is designed for large volume shredding in a central location.

The 8902CC is easily able to shred stacks of computer forms, cardboard, tapes, ribbons, CDs, magnetic disks, and entire files up to 500 sheets at once. Heat-treated solid-steel cutter blades, a powerful AC geared motor, and a variety of safety features combine to offer years of safe, reliable document security. Shredding blades can be customized to meet your specific information security needs.

Specifications

	8902CC
Cutting Style	Cross Cut
Shred Size	1/5" x 4 7/10"
Sheet Capacity	500
Speed	26 fpm
Feed Opening	21"
Dimensions	47" W x 81" D x 63" H
Bin Capacity:	102 gal
Weight	1,984 lbs
Power Supply	Three-phase, 220V, 50/60 H
Product Number	750515900
Delivery Requirements:	Customer-supplied automated pallet jack or fork lift is required for installation

Standard Features

- Designed to shred entire files, stacks of computer forms, cardboard, tapes, ribbons, CDs and magnetic disks
- Heat-treated solid steel cutters are specially ground for longevity and require minimal oil
- High-volume for centralized shredding
- Large safety bar to stop operation
- Shreds up to 500 sheets at once
- Mobile steel waste bin on casters
- Variable shred sizes available
- Thermal overload protection
- Safety Circuit Breaker ensures safe operation
- Auto Sensor stops motor automatically when waste bin is full
- Customized shredding blades available for special purposes and applications

Featured Highlights

- Conveyor feed system
- High-quality all metal construction
- Special heat-treated solid steel cutting blades
- Large safety bar to stop operation
- Overload protection
- Shred bin capacity: 102 gallons
- Customized shredding blades available for special purposes and applications
- All-metal waste bin on casters
- Optional high-capacity output baler

Options

High-Capacity Output Baler: Compacts shredded waste directly into plastic bags

Warranty

- 10-Year Limited Warranty on cross-cut and strip-cut cutting head
- 1-Year Warranty on all other parts
