

Burroughs

Burroughs Statement Printer Program

Powerful Document Handling Solutions

Customized Multifunctional Statement Printers that print, copy, scan and fax from 55 ppm up to 105 ppm (letter) for use with Burroughs Products

Burroughs Value Add

The Statement Printers are customized by Canon for Burroughs with imaging drivers, and the hard drives are modified for compatibility with CCITT Group 3 and 4 compression of data common with the printing of check images.

Benefits include:

Digital Copier/Printer/Scanner/Fax	2 x 1500 Sheet Universal Paper Drawers
4250 Sheet Finisher with Stapling Letter Size	UFR Print Driver
300 Sheet Electronic Document Feeder	2 x 550 Sheet Drawer
3500 Sheet Large Capacity Tray	PCL Print Driver
Scanner/ Up to 200 IPM (duplex)	1 x 100 Sheet Stack Bypass Tray
Color Scanning	Delivery, Installation, Training
	80GB Hard Drive (standard)

Recommended Duty Cycle and Print Range Per Month

Statement Printer	Pages Per Minute	Max Recommended Duty Cycle per Month	Recommended Monthly Print Range per Month	Total # of Sheets
Canon imageRUNNER ADVANCE 6055 (Burroughs Model # BMS55-HCI)	55	200,000	20,000-60,000	7,600
Canon imageRUNNER ADVANCE 6065 (Burroughs Model # BMS65-HCI)	65	250,000	40,000-80,000	7,600
Canon imageRUNNER ADVANCE 6075 (Burroughs Model # BMS75-HCI)	75	350,000	50,000-100,000	7,600
Canon imageRUNNER ADVANCE 8085 (Burroughs Model # BMS85-HCI)	85	750,000	100,000-250,000	7,600
Canon imageRUNNER ADVANCE 8095 (Burroughs Model # BMS95-HCI)	95	750,000	125,000-300,000	7,600
Canon imageRUNNER ADVANCE 8105 (Burroughs Model # BMS105-HCI)	105	750,000	150,000-300,000	7,600

Performance

The Statement Printers are built on a system architecture that incorporates both System On Chip (SOC) architecture as well as an advanced CPU board. This new architecture helps the device achieve exceptional performance with faster processing and support for more sophisticated features.

Benefit

The Advanced imageCHIP System Architecture achieves the performance and quality required for light production markets. Now you can perform personal document workflow tasks, such as archiving, merging, and distributing, all from the desktop with “drag-and-drop” simplicity. You can also search for documents with ease, and monitor the status of your work from any location on the network.

User Experience

The Statement Printers 8000 and 6000 Series of devices both feature a large upright control panel. The 10.4” touch screen (optional on the 6000 Series) features SGVA technology with high resolution for a more rich and vivid display of color and text. In addition, Thin Film Transistor (TFT) technology allows for wider viewing angles and greater contrast. Statement Printers are designed to provide a highly responsive, flexible user interface that is all about simplicity and ease. Two menus streamline your workflow. Just a stroke of the Main Menu keys gives you instant access to device functions while the Quick Menu powers productivity by allowing you to combine and access routine tasks at the touch of one button. Canon’s MEAP (Multifunction Embedded Application Platform) technology allows for integration with unique business applications.

Benefit

The Advanced imageCHIP System Architecture will help achieve the performance and quality required for light production markets.
