- Storage media and optical products
- Impact printer consumables such as ribbons, printbands, and printheads
- Cables and connectors
- Miscellaneous supplies including
  - Sorter and check racks
  - Check trays
  - Workstation organizers

## Printer Supplies

Quality, availability, and price are primary factors that companies take into consideration when sourcing printer consumables. Burroughs offers a large range of off-the-shelf products at highly competitive prices. Our printer supplies represent true value for the money, delivering high quality and performance at reasonable prices.

**Toner.** Burroughs new and compatible Laser Toner Cartridges improve your images while helping to lower your overall printing costs. Our toner cartridges produce clean, clear, crisp images. And, our toner is an exceptional alternative to other higher priced products. The Burroughs toner warranty provides for prompt replacement of a defective toner cartridge and repair or replacement of equipment damaged by the defective toner cartridge. (For up to 1 year of purchase.)

**Ribbons.** With Burroughs ribbons, your production environment can print sharper images for a longer period of time, and change ribbons less frequently. You save money while minimizing your downtime. Our ribbons provide superior engineering and construction for better images and dependability. When you want high print quality and performance, choose Burroughs ribbons.

**Financial.** The Burroughs Magnetic Ink Character Recognition (MICR) laser printing system lets you print checks, vouchers, coupons, and statements conveniently. This system eliminates the need for preprinted checks by allowing you to easily create and change the form, logo, company name, address, MICR line, and signature. MICR cartridges are available for the most popular laser printers. Burroughs is a long-standing member of the ANSI standards committee governing MICR specifications—and nearly half the world's checks are processed on Burroughs equipment. Our years of experience and industry insight give us the unique ability to provide the right technological solutions for the ever-increasing challenges faced by the financial industry.

## Financial Processing Supplies

For financial institutions looking to remain competitive in today's service-oriented market, image technology represents an opportunity to better process document workflow. The benefits of integrating this technology are numerous: faster payment processing, fewer errors, faster retrieval, and labor savings.

Burroughs helps you to streamline your procurement process by your purchase of banking supplies from a single preferred supplier. With a reputation for handling mission-critical transactions, Burroughs is the top choice to handle your supply needs.

NDP consumable supplies including multi-jet endorsers, document-processing accessories, check trays, sorter racks, transport carts, portable joggers and jogger stands.

Miscellaneous consumables including encoding eraser fluid, document/MICR correction labels, fanfold paper, roll paper, thermal paper, check strippers, check de-strippers, anti-static dust covers, acoustical sound enclosures, carbonless paper, Burroughs microfilm, and Burroughs reader/sorter ink.

## Data Storage Media

High quality media is crucial for delivering system uptime and reliability. When backing up mission-critical information, be sure to turn to Burroughs Media and Optical products for security and ease. Our high-capacity products are dependable and error-free. Burroughs tests and certifies our media for optimal system performance and capabilities.

- LTO

## Cables and Connectors

Poor quality cables can cause communications problems as well as pose safety hazards. Burroughs cables are specifically designed and tested to meet, and in some cases exceed, many of the safety standards and manufacturing regulations for computer cables. All Burroughs cables meet the National Electrical Code CL2 ratings for commercial cable. We also use plated connectors and enforce manufacturing standards to help combat corrosion, increase reliability, and reduce signal degradation.

Burroughs provides cables for:

- Desktop and Enterprise Printers
- Networks
- Peripherals
- Communications
- Electrical Applications
- Telecommunications

## Superior Customer Service

Burroughs consumables are designed and manufactured to precise equipment specifications. We provide a single source of accountability for systems, service, and supplies.

- Higher quality with a lower cost of ownership
- Specifically manufactured and customized for the unique requirements of Burroughs customers
- Greater depth of supplies assortment
- Single source for hardware, software and supplies
