

High Image Reconciliation Costs?

Use cleaning cards to reduce costs.

By not cleaning, you risk:

- Transaction failures resulting in lower customer confidence
- Labor costs to reconcile poor images
- Higher maintenance costs
- Inconvenient unplanned downtime
- Rejected transactions based on poor image quality

Burroughs Check Scanner Cleaning Card featuring Waffletechnology®

The Burroughs Check Scanners are high tech imaging machines for check scanning in a convenient desktop design. The removal of dust or ink debris that could distort or alter the image is important to maintain the overall clarity of the image and, in many cases, prolong the life of the equipment. This Waffletechnology® Cleaning Card is specifically designed to maintain the Scanners. When regularly used, this card will keep your scanners performing as designed. This cleaning card is approved and endorsed by Burroughs to be the only product used to clean their equipment. Use this product once per week or after 2,000 checks scanned. Use this product to clean Burroughs Check Scanners (except the Adaptive model).

Part Number: 757200995 | 15 Cleaning Cards per Box

The **COST** of each poor quality image

...to collecting bank: **10 - 15¢**

...if identified before image transmission: **50¢ - \$1.00**
